

House of Keys General Election
Thursday 29 September 2011

Manifesto

*Bringing politics
back to the people*

Juan Cottier

for MIDDLE

Dear Constituent,

As a Manxman with a long-standing interest in politics, specifically politics that resonate with the people, I chose to join the Liberal Vannin Party and am central branch Chairman, Vice-Chairman of the Constitutional committee and membership secretary. I have written articles and completed research for party members, prompting leader Peter Karran to say: 'It is this determination and common sense approach to problems that makes Juan an ideal candidate for the Party.'

I am 45 years old and live with my family in Middle. Educated at King William's, I joined the Royal Air Force in 1986 as a data analyst, serving on 'the Dambusters' 617 Squadron and at Strike Command's air warfare centre. Before I returned home in 2001, I started a consultancy firm in London which supplied computer engineers to blue-chip companies.

Over the past few months, I have had the enjoyable opportunity of meeting many of you, through holding coffee meetings and Party question times, as well as knocking on doors. All of this has helped me to learn about the issues that concern you and discuss with you how the Liberal Vannin Party can, with your support on 29th September, deliver the solutions that will secure the Island's future economic and social wellbeing.

Amongst local concerns raised, the three most common are: traffic levels, child safety and the lack of shopping facilities in Marown.

Traffic Issues:

The volume of traffic on Mount Rule Road, Foxdale Road, Glen Darragh Road, Cooil Road and the Old Castletown Road have risen to unprecedented levels. To counter this, there needs to be a strategy of traffic calming measures and rigorous speed enforcement, combined with moves to encourage motorists to use the Peel and Castletown main roads.

Child safety - unacceptable factors include:

- Mount Murray: children forced to cross the busy main road to catch the school bus and a lack of 'drop-off' facilities;
- No playing field in the Glen Vine estate;
- No crossing points for Braddan and Kewaigue schools.

No shop in Marown:

With the shop in Crosby closing, there are now no shopping facilities in Marown. I will fight for the inclusion of a shop/shops in any future development in Crosby.

These are issues which, as an MHK, I will endeavour to resolve.

At this election the public is concerned with national issues. Our policies, covered in our Party manifesto in the following pages, address your concerns and the questions you have raised.

Thank you for taking the time to read and consider these policies. Invest your vote wisely.

Regards,

Juan Cottier

LIBERAL VANNIN PROGRAMME FOR GOVERNMENT

There is a widespread feeling of disappointment in our politicians: we need change. If the same politicians are elected it won't change - more of the same gets more of the same, and that isn't good enough for the Isle of Man.

A Liberal Vannin Government will get a grip on spending and international affairs, and involve the public with the difficult choices ahead to build on our success and secure our future.

REFORM AT HOME and CONFIDENCE ABROAD

Enhance openness and increase scrutiny

- Introduce a Freedom of Information Act
- Appoint an independent Auditor General and an Ombudsman
- Reduce the number of departmental political members to nine

*90% think
prospective Chief
Ministers should
take part in
public debate*

Manx People
Power 2011

Reduce the cost of politicians

- Require all members of Tynwald to contribute to their pensions
- Eliminate the fixed annual sum for expenses
- Abolish the supplement to Tynwald members salaries for membership of departments and statutory boards

Reform the process of selecting the Chief Minister

- Have an open Tynwald Ballot for Chief Minister
- Require all candidate Chief Ministers to publish a national policy programme before a general election

Improve democratic representation

- Redraw constituencies for the House of Keys to provide equal representation for all voters
- Arrange national elections for Legislative Council

Act more self-confidently abroad

- Exercise greater control of Government revenue by investigating repeal of VAT revenue sharing
- Negotiate better reciprocal arrangements and extend the Island's international relationships

*54% of residents
considered VAT,
cost of living and
government
deficit as the
most important
issues facing
the new
government*

LV Research 2011

Bringing politics back to the people

SUSTAINING ECONOMIC GROWTH

A Liberal Vannin Government will work with the private sector to sustain growth and maintain confidence and investment: despite the constrained government finances.

Finance sector, diversification and innovation

- Continue to develop regulation and tax policy to enable the finance sector to flourish
- Open discussions to join the European Free Trade Association that our Island left when the UK joined the EU
- Address issues arising from the possible abrogation from the UK revenue sharing agreement
- Create business parks in north, west and south
- Promote the Island's business abroad by involving both the Lieutenant Governor and the business community
- Refund VAT on start-up expenses and promote the Island as a location to hold intellectual property

Island's strategic lifelines

- Explore the development of a privately funded deep sea linkspan to encourage competition in sea freight, transport and attract cruise liners
- Secure London City and other UK landing slots
- Provide ownership and financing opportunities to Manx residents for all strategic lifelines

Leisure, food, energy and environment policy

- Cooperate with the private sector and community to provide facilities for residents and tourists of all ages
- End the Countryside Care Scheme and provide production incentives to farmers
- Encourage our farmers to be part of the first Island Nation to be an organic and compassionate food producer
- Manage the forests for biomass fuel and leisure
- Increase the energy efficiency of all buildings
- Require MEA to pay a reasonable rate for micro generated electricity
- Increase recycling by joining up waste management initiatives

.....the Airport Director and Minister stated recently that if the airport were run on commercial lines annual cost savings of £2 million could be made

IOM Newspaper
July 2010

23% of people surveyed believed that the IOM should increase recycling and reduce waste

LV Survey 2011

Bringing politics back to the people

REDUCTION OF GOVERNMENT WASTE

LVP does not believe in privatisation but will encourage Manx residents to be minority participants in the financing of our infrastructure and our strategic lifelines.

Create culture change

- Appoint a political member to the Chief Minister's Office who is responsible for government culture change to improve quality and reduce costs
- Create a Tynwald committee to advise on priorities for delivery of services by reference to 2006 Scope and Structure of Government recommendations
- Avoid redundancies in the public sector by redeploying personnel
- Contract out some services and corporatise some operations

Maintain competitive tax rates

- Set up a Tax and Welfare Commission to review the present regimes to ensure the Island can fund welfare provision without making our tax rates and national insurance rates uncompetitive
- Close existing public sector pension schemes to new entrants
- Ensure government expenditure is less than government income by the 2014/15 financial year

Performance improvement

- Act on 2011 recommendations of Public Accounts and MEA Select Committees addressing inadequate financial management and budgeting in Government
- Reduce expenditure on external consultants by empowering Government managerial and technical staff to make decisions
- Empower all members of the public sector to identify and implement service improvements
- Only approve capital projects following review of published cost benefit analysis
- Create a level playing field when comparing private sector bids against public sector costs

"An annual review of basic expenditure and activity (BEAR) is in place which is no longer fit for purpose....."

Report by the
Standing Committee
of Tynwald on
Public Accounts
2011

Why does the MEA sell electrical goods when it makes a loss doing it?

Bringing politics back to the people

OUR CARING SOCIETY

Health care

- Protect the front line staff and services
- Introduce benchmarking by speciality involving lay members who report to the Minister
- Develop a website listing consultants, their qualifications and waiting times
- Establish independent auditing and encourage the formation of a Patients' Association
- Promote the Island as a destination of choice for specialist health care by attracting world class specialists to base their business on the Island
- Implement adequate safeguards for the Liverpool Care Pathway and the "do not resuscitate" policy
- Set up a working party to develop an effective first class dental health care policy and system

Social care

- Assist our elderly to remain in their own homes and retain their independence
- Review residential and nursing homes legislation
- Broaden and make public the results of independent inspection procedures
- Investigate the provision of financial assistance to family members who care for elderly relatives
- Introduce a system of direct payments allowing the elderly and disabled to retain more control of their lives
- Introduce measures to address the financial problems of an aging population
- Implement an independent audit of social care
- Introduce a committee of lay members to improve the effectiveness of the service
- Bring into force the Disability Discrimination Act

Military covenant

- The Minister for Social Care will have responsibility for Manx Service Personnel and Veterans and seek to put into Manx Law a Military Covenant defining our duty of care to all past and present Manx Service Personnel

"..... on average Manx children have more than two decayed, filled or missing teeth by the time they are five"

Dept of Health
August 2011

....I am delighted to add my personal endorsement to the LVP's determined strategy towards the welfare and wellbeing of our Manx Service men and women

Charles Wilson
Honorary Colonel

Bringing politics back to the people

OUR CARING SOCIETY

Education and Training

- Protect front line teaching
- Empower parents to select pre-school education by introducing a voucher system
- Emphasise aspiration and achievement and teach all our young people about civic duty and responsibility
- Encourage more apprenticeships by positive discrimination for those who provide them in the tendering process for public contracts
- Provide work experience for those out of employment and training for more than 6 months
- Help the long-term unemployed get back to work by introducing incentives for employers
- Protect the grants system for qualified students and reintroduce tax relief for educational covenants

*57% of Full Time
Equivalent staff
employed in
relation to schools
are not teachers*

Hansard data
February 2011

Housing

- Introduce a protected housing scheme to enable Manx residents to buy new houses for homes rather than investment purposes
- Encourage those in social housing to participate in our property owning democracy by the introduction of joint equity schemes
- Introduce a landlord accreditation scheme to improve the quality of the rental sector

Immigration

- Improve the work permit regime
- Consider bringing into force the 2001 Residency Act
- Review the application of the June 2011 points based Immigration Rules

*Housing
availability and
affordability for
first time buyers
were the most
frequently raised
concern by those
under 25*

Pensions and Benefits

- Investigate and prosecute cheats
- Monitor the changing UK National Insurance and basic state pension regimes and then review the Manx system recognising the importance of residence in the Island and contribution to the system
