

Who is Anthony Allen and what is he about?

- Anthony is a former Director of Laxey Flour Mill and owner of business consultancy Manxiom www.manxiom.com; a business with a no-nonsense approach to help nurture and grow businesses.
- A problem solver having a clear plan for a better more secure future.
- An independent candidate living in Onchan, married to Joanna, three children, and a history of public service.

What does Anthony stand for...

- Security, job creation, opportunities for the young to develop and reach their full potential. Vocational training opportunities for everyone.
- Faster and smarter government, that doesn't cost a fortune and gives value for money for every tax payer's pound spent; with my business background and experience, I have what it takes to get the best value for everyone.
- Accountability for decisions and transparency of information.
- Care for the elderly and the vulnerable, that is fit for purpose when needed.

My pledge to the people of Onchan ...
is to work tirelessly for your best interests,
ensuring everyone is listened to, treated
fairly and represented at all times.

MHK FOR ONCHAN

WORKS FOR EVERYONE

ECONOMY

- A stronger economy for you and your family investing to protect our public services working to realistic timescale for the benefit of everyone in Onchan and the Isle of Man.
- Hold government accountable for their decisions, stop wasteful spending by deferring decisions on key projects. Let's get on with the job.
- Support businesses to grow faster and generate more jobs.
- Encourage and support a diversified economy.

HEALTH and SOCIAL CARE

- Patient centred approach increasing the Health & Social Care budget with more trained front line staff in primary health care.
- A health service that is able to deliver care in a timely way at the point of contact with a restructured management profile with less bureaucracy.
- Fit for purpose health service for the needs of today's population and plans in place to meet the demands of tomorrow.
- Affordable housing and funding for a wide range of social care support for an ageing population.
- Provide people with education, training and work experience.
- Mental Health care for people which is effective at the point of delivery.

INFRASTRUCTURE

- Roads and footpaths brought up to standard faster, smarter and with the public's input and a department with the people and resources to make it happen.
- The Airport and Steam Packet contracts are renegotiated to provide the best possible transport services and competitive pricing for fares.

EDUCATION

- Additional preschool places to help reduce the cost of childcare.
- Our children need the best start in life and support throughout their journey from pre-school to higher education.
- Incentives for Isle of Man students that complete their degree off Island to return to the Isle of Man. Stop the brain drain of our young people.

LAW AND ORDER

- Work closely with the Police and the courts to speed up the process of offenders being dealt with punishments that fit the crime.
- More community based punishment, higher fines, whilst benefiting the community will reduce the cost of housing offenders in prison.

ENVIRONMENT AND AGRICULTURE

- Alternative energy sources are considered.
- Contracts with the existing utilities are not to the disadvantage of the public user.
- Support farmers to grow sustainable crops, rear animals to provide food security for the people of the Isle of Man.
- Support local producers to grow their businesses and create more local jobs.

CARE FOR THE ELDERLY

- Ensure that pensions keep pace with inflation and that Manx Pensioners regardless of circumstances have higher incomes than if they lived in the UK to compensate for our higher cost of living.
- I will campaign to change the laws so that people never have to surrender their home to fund their nursing care.
- Campaign for a TV Licence that is free for people 75 years and older.
